

3U Injection Molded 13" Deep Rack Frame

SKU: 3i-M3U13-FRM

Description

SKB's injection molded Fly Rack internal frames are available to order separately in a variety of rack unit sizes and depths. These are perfect for users that already own the Fly Rack system, but would like to have additional rack frames mounted full of equipment ready to be swapped and quickly deployed. These could also be used in a studio setup where the equipment is not meant to be transported. The tops and bottoms of the frames are injection molded to stay lightweight and feature rubber feet that enable stacking to help create a modular setup. The frame has threaded steel front and rear rack rails and comes with rack screws (10-32 thread). Please see the list below to verify which additional rack frame will work with each type of Fly Rack.

Frame dimension: 19.625" x 13.25" x 7.62"

3i-M2U13-FRM can be used with 3i-2215M82U or 3i-2217M82U

3i-M3U13-FRM can be used with 3i-2217M103U

3i-M4U13-FRM can be used with 3i-2217M124U

3i-M6U13-FRM can be used with 3i-2317M146U

3i-M3U20-FRM can be used with 3i-2424M103U

3i-M6U20-FRM can be used with 3i-2424M146U

PLEASE NOTE: Individual Rack Frames are not intended to be transported without the appropriate iSeries case and do not carry a warranty. Please contact SKB with any questions at (800) 410-2024.
